Scouting 2.0: introduces a plug-and-play leadership model that lives within your existing troop - not as a replacement, but as an enhancement. This approach gives older youth ownership over real-world responsibilities like trip planning, budgeting, fundraising, and internal team leadership. This session will walk you through how to launch your own version of this program in a single weekend - with example by-laws, applications, position descriptions, and even branding assets ready to go. If you're trying to build a leadership pipeline, increase retention post-First Class, or simply elevate your Troop's experience, this is for you. No experience needed.
